

## **Parks and Recreation Opportunities Highlighted in New ICTN Programs**

“Parkscape” is a new, quarterly program on Irving Community Television Network (ICTN) that highlights Irving parks and recreation facilities and activities. Hosted by city employee Sheila Hupp, the first show aired in May.

“This show is a great resource for residents to learn more about the city’s parks and recreation amenities,” said Hupp. “We focus on special events and fun recreational programming that people of all ages can enjoy.”

In August, the second episode focused on Campi3n Trails, the Native Plant Garden, West Park, Summer Splash Day Camp, the therapeutic program and a profile of Senior Activity Specialist Pat Davenport.

The next “Parkscape” begins airing Nov. 10 on ICTN1 (Time Warner - Channel 16, Verizon - Channel 30) and will feature the Heritage Senior Center along with other stories. For details, visit [www.ictn.tv](http://www.ictn.tv) and click on “News and Information.”
