

Code Enforcement Snow Cone Stand – Minimum Requirements

1. Single compartment sink.
2. Soap & towel dispenser must be located adjacent to the sink.
3. Five (5) gallon water supply tank, gravity or force-fed.
4. Impervious floor covering, tile, sheet vinyl, steel plate, etc.
5. Interior walls and ceiling must be non-absorbent, light in color, similar to white or off-white for ready identification of any contaminate or dirt.
6. Supplies must be purchased from a commercial source.
7. Food service openings must be equipped with sliding screens or windows.
8. All sinks must empty to either a retention tank that is 15% larger in capacity than the water supply tank or connected to the on-site sanitary sewer. All waste must be disposed into a sanitary sewer system.
9. Sanitizing all surfaces and equipment daily.
10. One 2½ pound (minimum) ABC fire extinguisher.
11. Food sales limited to snow cones and/or prepackaged non-potentially hazardous foods or non-potentially hazardous beverages
