Project [80988] Gables Water Street Phase I - Las Colinas
Subject Project No. 173E-09 Secant Pile Seawall Addendum #1

Dear Mr. Matthews:

There may be some confusion on whether or not the pre-proposal conference for the concrete wall design is mandatory if a proposer has attended one of the pre-proposal conferences for Project No. 154E-09 Sheet Pile design.

All potential proposers for the Secant Pile Design MUST attend one of the pre-proposal conferences set up for that project.

Sincerely,

Sean Harris
Senior Project Manager
