**Project** [80988] Gables Water Street Phase I - Las Colinas

**Subject** Importing Fill Alternate

Dear Mr. Matthews:

There is approximately 50,000 Cubic Yards of fill located at the Irving Convention Center site which is located approximately a half mile from the seawall project site. The Geotech Proctors have been reviewed and this fill is suitable to be used for the reclamation. All proposers interested should contact Austin Commercial. The fill is also posted on <http://www.dirtfill.com/>.

If you have any questions please do not hesitate to contact me.

Sincerely,

Sean Harris  
Senior Project Manager
