

# Toilet Coloring Test

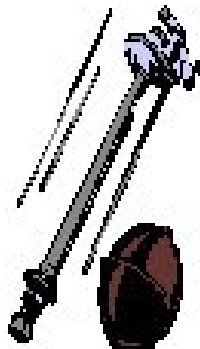

**Step 1:** Drop Food Coloring or dry flavored drink mix in tank that does not already contain coloring agent such as bowl cleaner.

**Step 2:** Wait 15 -30 minutes without flushing commode.

**Step 3:** Check to see if any of the color appears in the bowl without flushing.

**Step 4:** The culprit is probably a worn-out ball cock (float) or flapper. Replace. (Cost a few dollars, available even at grocery stores).
