Historical Sketch

The maps in this collection were made by or for, or accumulated by the Department of Community Development from the 1950s to the 1990s. The Department of Community Development is responsible for guiding the orderly growth of the city while preserving and revitalizing the city's neighborhoods. These maps are the product of some of the projects undertaken by the department over the past forty years.

Scope and Content Note

The collection, contained in 14 map boxes, 18 map folders, and mounted maps, is composed of 265 maps created by or for, or accumulated by the City of Irving's Department of Community Development from the 1950s to the 1990s. The maps address a wide range of city related topics.

The collection is organized in five series. The first series (maps 1-37) consists of maps addressing citywide topics such as soil types, sewer and water systems, flood plains, voting precincts, council districts, and community growth. The second series (maps 38-158) is made up of area study maps. The maps include the Central, Downtown, Union Bower, Valley Ranch, Northwest, North, West, Britain Rd, Southeast, Irving Heights, South, Greenview Hills, and Perry Road area studies. These studies broke the city down into sections and then examined each section's characteristics. Series three (maps 159-170) is made up of USGS maps. These USGS maps are for Irving, Euless, Grapevine, Carrollton, and Dallas. Series four (maps 171-203) is made up of aerial maps of Irving and the surrounding area. The aerials span from the 1960s to the 1990s. There are a number of aerials of the airport and its surrounding area. Series five (maps 204-264) consists of maps relating to the development and expansion of the Dallas/Fort Worth International Airport. A large number of these maps are related to airport created noise questions and the mitigation process involved when the airport added a runway on its eastern side.

Provenance Statement

The City of Irving Department of Community Development Map Collection, accession number 0304-122, was donated to the Irving Archives by the Department of Community Development in March 2004. Prior to its donation to the Archives, the maps were in the possession of the Department of Community Development.

Literary Rights Statement
