STEEL STRIKE RIOT; ONE DEAD

Situation Is Critical at Bethlehem—
Several Wounded.

South Bethlehem, Pa.: With one man dead from a bullet fired by a policeman, with two others suffering from slight pistol wounds, and with more than a dozen men nursing injuries inflicted by the heavy riot sticks of the troopers, South Bethlehem is apprehensive of what next week has in store for it. There has been no battles between the hundreds of Hungarians and the mounted police, but the situation was at times critical. The man killed was Joseph Sambo, and is said to be one of the men on strike at the Bethlehem Steel Works. This fatal shooting aroused an ugly feeling among the foreign element on strike at the steel works. The police say that every revolver on sale in this town and Bethlehem has been purchased by foreigners.

Five Killed In Houston House.

Houston: The most gruesome of all the tragedies that have occurred in and about Houston recently was revealed at noon on Wednesday when the decomposed bodies of five human beings were discovered in a house at 76 Ashland street, Houston Heights. Owing to mutilation, identification of the adults was difficult, but they were finally identified as the bodies of Gustave Schultz and his wife, Alice Beale Schultz; their two small children, and Walter E. Eichman. Absolute mystery surrounds the tragedy, every theory being exploded by countervailing evidence.

Car Inspector Crushed.

Frank Wilson, a car inspector at Irving for the Frisco trains entering this place, while inspecting a Frisco car in the yards here at noon Monday, was caught and dragged about 180 feet by a T. & B. V. freight engine doing some switching. His right hand was cut off, his right hip splintered, and his left knee and thigh crushed to a pulp—besides bruises generally. He was pinioned down some ten minutes before the car could be pinched off his leg. After local medical attention, he was taken to a Dallas sanitarium, where the hand and leg were surgically amputated; but he died at six o'clock that evening.

Deceased was about 50 years of age, and was sent to Irving a few weeks ago from Sherman, by the Frisco, in whose employ he was serving.

Index learns that he had no family other than a daughter about 14 years of age—who was at Sherman.

John F. Worley, one of the best known printers in Dallas, died Wednesday morning just before the hour of 12 o'clock. He had undergone a slight scalp operation some three hours before death, but the physicians are all of the opinion that death was produced by heart failure and not because of the anesthetics administered as he had come from under the influence of same in fine spirits. He has been a faithful worker for Dallas and his presence will be greatly missed.
