Suicide Threat 'Real'

Gerry Feury's hectic life came to a sordid end in a Dallas County jail cell shortly before 10 p.m. Monday night.

Her suicide automatically ~~removed a murder case~~ against her from the Tarrant County criminal docket.

The 24-year-old Grand Prairie waitress had made \$5,000 bond and was awaiting trial for the April pistol slaying of her alleged lover, a 34-year-old General Motors foreman, in front of his eastern Arlington home.

However, her liberty proved short-lived as friends in Dallas last week turned her over to Dallas County officials on a hunchy investigation.

She was taken to Parkland Hospital, screaming and threatening suicide. Later she was locked in county jail.

At 9:10 p.m. Monday night, a woman prisoner screamed for jail matron Melba Clink. Mrs. Clink found the pretty brunet hanging to a cell door. Her neck was bound with a strip of blanketing.

Artificial respiration proved to no avail, and the slender young woman was pronounced dead at 10:55 p.m.

Arlington police generally seemed prepared for such a conclusion to the murder case.

Two Pilots Killed In Jet Crash

LAS VEGAS, Nev. (UPI) — Maj. Robert S. Fitzgerald, leader of the Air Force Thunderbirds who fly supersonic acrobatics while 15 inches apart, was killed Thursday when his F100F jet crashed while he was watching other team members practice their maneuvers.

Also killed was Capt. George A. Nial, 31, also a pilot and new narrator for the team. Nial was flying with Fitzgerald to become familiar with the Thunderbirds' routine.

The Air Force said Fitzgerald's two-place fighter was not stunting at the time of the crash, about 60 miles north of here on a dry lake bed in high mountainous country. The lake is named Thunderbird Lake after the team.

The 38-year-old command pilot was flying low and some distance behind the Thunderbirds—with another pilot flying his position on the team to explain the different maneuvers to Nial.
