Driver losses control, dies in traffic accident

By LIZABETH CARDENAS
News Staff Writer

A 23-year-old Irving man was killed early Thursday morning when his car went off a south Irving road and struck a guard-rail and then a tree.

Richard Maldonado was traveling westbound in the 1600 block of west Fifth Street at 1:50 a.m. when he lost control of his vehicle and hit a guard-rail and a tree.

Maldonado was pronounced dead at the scene, and the only passenger in the car, a 24-year-old Irving man, was taken to The Irving Hospital, where he was treated and released.

No other vehicles were involved in the accident, police said.

"There was not a lot of traffic at the time of the accident," said David Tull, Irving public information officer. "At that hour, the streets would’ve been quiet and empty."

The red 1993 Ford Ranger pickup truck Maldonado was driving came to a stop after striking the guard-rail and then the tree. Neither Maldonado nor the passenger were thrown from the vehicle, police said.

Police believe Maldonado was driving too fast.

"Initial indications are that high-speed and failure to control the vehicle were factors in the accident," Tull said.

"He was traveling at a high rate of speed when he lost control of his vehicle."

Police are also looking into whether Maldonado had been drinking, and whether it contributed to the accident.

"Alcohol may have been a factor, and we’re currently trying to determine that," Tull said.
