5. For movies, music and audiobooks, a **PLAY** option will appear. For eBooks and comics a **READ** option will appear. Clicking these will begin playback or open the title.
6. Movies are available for 3 days, music albums are available for 7 days and all other items are available for 21 days.

TIPS

- With web access, all titles are streamed. Downloading is only available with the Hoopla app.
- You can return the title before the lending period has expired by clicking on **Return Now** at the bottom of the title information page. **Please note that returning a title early does not give users additional borrows for that month.**
- All items are always available, so holds are not necessary. Titles can be added to a *Favorites* list for future borrowing by clicking the **Favorite**  icon at the top of the title information page.
- Please note that some browsers require third-party plugins for media playback. We always recommend using the latest version of any browser to ensure you have the best possible user experience.
- If you experience issues at any stage, check <https://www.hoopladigital.com/support> for instructions, FAQs and solutions to common problems.
