

FIRE STATIONS

FIRE STATION 4

This project will replace the existing Fire Station 4 which is almost 60 years old. The existing building is outdated and is not large enough to house modern fire equipment. The new Station 4 will be at the southwest corner of Metker & Toler streets. The new station will be 8,580 SF building that will house 7 fire fighters, a fire pumper truck and an ambulance. There will also be a separate Battalion Chief quarters. The building design is by Komatsu Architecture.

Contractor: J C Commercial Inc

Contract: \$3,687,777.00

Notice to Proceed: 06/03/2019

Project Time: 300 Calendar Days

JOINT TRAINING FACILITY - FIRE APPERATUS STORAGE BUILDING

The project will construct an 11,400 square feet storage building to house fire fighter related equipment. This building is part of the master plan for the *Irving / Grand Prairie Joint Training Facility*.
